

Services

Get exactly what you need to live life fully.

Sage Mountain proudly offers Assisted Living and Memory Care. Our goal is that you can live life as independently as you wish with our caring, expert team there to provide a helping hand if needed. Our expertly trained team is on-site 24/7 for support.

Assisted Living

Assisted living is chosen for different reasons and we know no two stories are exactly alike. Some choose assisted living because they need a little help living life fully. Some crave social opportunities and the close comfort of friends. Others no longer want the responsibility of upkeep for their home, and want the benefit of others to cook, clean, do laundry and more. No matter your reason for a move to assisted living, you can find what you need here at Sage Mountain.

Memory Care

We know that living with memory loss due to dementia is challenging. We look past the disease and focus on the individual. By providing customized care that's exactly what someone needs to live safely and with dignity, and by getting to know residents personally, we can ensure that those in memory care at Sage Mountain will thrive while living life in our community. We'll ensure the support they need.

Respite Care

When space allows, we're pleased to offer respite stays. A respite stay is a temporary solution that families use for many reasons – perhaps caregivers need to work or travel (or simply take a break) or it can be a good bridge between a medical procedure and a move back home. It's also the perfect way to try our community to determine if we're a good long-term fit for you or your loved one.

Respite stays can range from a few days to a few weeks, to a few months. We'll provide a comfortable furnished room – or if the stay is longer-term – we'll move in your own bedroom furniture. During a respite stay, guests benefit from our caring staff, life-enriching activities, delicious meals and a safe and secure environment.
